~~SECRET/SENSITIVE~~

MEMORANDUM FOR THE RECORD

FROM: William Watts.
SUBJECT: Wednesday Morning Operations Staff Meeting

[Omitted here is material unrelated to Nigeria]

3. On Nigeria, Roger said the federal government may be destroying the Uli airfield. He understands Dewey was thrown out on the personal orders of General Gowon. Kennedy and Ruser will be back here Saturday morning. Kissinger asked if anything was getting into the enclave. Roger said not nearly enough and that many are dying. We will never know just how many. There really is nothing more we can do right now.
